Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

Independent claim 1 discloses the device and independent claim 13 the method which correspond to this solution.

5. This solution cannot be found in the prior art, and cannot be derived from the latter without inventive step. Local networks and no IP transmission are, *inter alia*, not used in the closest prior art.

Claims 1-13 are therefore novel, involve an inventive step and are industrially applicable (PCT Article 33)).
